

I have an issue with the issue of allowing LPFM stations over national radio stations. I am a current listener to K-LOVE out of California and I might lose that radio station if this were allowed to occur. The K-LOVE station has provided my family and I countless hours of wonderful programming about my Christian beliefs. The music and personalities are a blessing to me and my family. If a LPFM were to displace the K-LOVE translator in our area, the community would be left without a comparable option for that programming and it would be a shame. K-LOVE works to create a community by promoting local events as well as living the Christian values that founded this country. Please do not allow the LPFM stations priority over the national services.
